*If there are two amounts listed, the first amount is the fee you pay prior to meeting the deductible. The second amount is the fee you pay after meeting the deductible and before reaching the out of pocket maximum. If a visit to the MFHC causes you to meet the deductible/out of pocket maximum, the amount owed may vary based on the remaining balance of the deductible/out of pocket. It is important to note that if you participate in a high deductible health plan, the fees for services at the Micron Family Health Center are set at fair market value to allow you remain eligible to contribute to a Health Savings Account.
